We would like to thank you for the delicious luncheon that you provided for our supervisors during the implementation of our new Radiology Information System. Each and every one of the staff complimented the quality and amount of food that you and the chef prepared and provided for us.

Rest assured that for our next departmental function, which most likely will be in the month of February, we will be placing our order from Tosca's.

Thank you again for your generosity and exquisite food.

Sincerely,

Robert G. Bernstein, M.D.
